

羅馬多元信仰 展現包容特質

羅馬的宗教展現多元、融合的包容特質，受到希臘文化影響，神祇與希臘神話均可一一對應，例如眾神之王宙斯，在羅馬稱為朱庇特，天后赫拉，改稱朱諾。羅馬人更在卡庇托山修建神廟，供奉朱庇特與朱諾；連希臘英雄海克力斯，也成為非常受歡迎的羅馬神祇。

The religion of ancient Rome was diverse and integrative and incorporated Hellenistic influences. Roman deities could be directly linked to Greek ones: Zeus, father of the gods, was called Jupiter by the Romans, and his wife Hera was renamed Juno. The Romans built a temple on the Capitoline Hill to worship Jupiter and Juno; even the Greek hero Heracles, renamed Hercules, was a popular Roman god.
